ONE MISSION. ONE COMMUNITY.

wear blue - May 23rd

In remembrance of Memorial Day, join wear blue: run to remember in honoring the family's sacrifice. Whether out your front door or with a local wear blue community, your steps ensure that the loved ones of these men and women who have laid down their lives for our freedoms are also remembered. Commit your mile's today and invite your friends to join the movement. #wbr2r #runinremembrance #forthe fallen

About wear blue: run to remember:

Our running community unites and supports military and their families, veterans, Gold Star families, and civilians through active remembrance and meaningful relationships. We motivate and empower individuals to healthier, more inspired living. More than 500,000 military members, their families, Gold Star families, veterans, retirees and civilians have participated in a wear blue event since its inception in 2010.

The definition of a wading pool is a small shallow area of water in which small children or adults can get their feet and lower bodies wet.

Wading pools are allowed but cannot be left out over night or unattended except in enclosed back yards. Such pools must be less than two (2) feet in depth and not more than eight (8) feet in width. No large above ground pools that require filtration devices are allowed. Do not setup or use your pool on your covered patio, please set up your pool in the grass or rock area in your yard. Pools are not allowed inside garage or on front porches.

Tips for loading your dishwasher

•Scrape plates before loading. This is a dishwasher, not a waste disposal unit!

• It is best to hand wash your sharp knives so that the blades do not become dull.

•

Hand wash any delicate glassware to eliminate the possibility of breaking once inside your dishwasher.

It's important that your dishwasher's spray arm can circulate fully and that the soap dispenser is not

•Once your dishwasher is fully loaded it's time for the dishwasher soap.

•Never use regular dishwashing soap unless you want your kitchen filled with soapuds.

running your dishwasher through a wash cycle, it's important to run hot water and the garbage disposal sink first.

This will help ensure that the dishwasher starts with hot water and that the drain is clear of any food

•All dishwasher detergent can clean well but it won't clean well if it isn't fresh.

A good rule of thumb is that you should only buy what you reasonably expect to use in a two-month - So those large size containers that you can buy in bulk are a bad idea.

•Your dishwashing detergent should also be stored in a cool and dry area of the home.

•Placing the detergent under the sink may cause it to clump due to moisture.

your plastic is dishwasher safe before placing it in your dishwasher. Secure delicate items on the top glasses prevents scratching. Mix up cutlery in the basket. An all-spoons-together approach produces even

so that water can run off freely. For example, invert cups and casseroles. When you empty, do the any drips you spill as you empty the top basket won't matter.

What you must NOT put into dishwashers:

•Aluminum pots: They may darken.

Antique, stainless steel, silver, hand-painted china and gold-rimmed pieces: The glaze may fade and Cast iron: It may rust.

•Cutlery handles made from bone or wood: The glue may loosen.

•Lead crystal and decorative glassware: It may dull over time and lose pattern definition.

•Plastics that aren't labelled dishwasher-safe. They may melt.

•Wooden spoons and bowls: Prolonged wet can warp the wood.

Be aware that repeated washing makes designs fade and shortens the life of eating and cooking
