Our CEO's Message

As we welcome fall we look forward to cooler weather, children settled into school and football. It is also a time when Hunt Military Communities launches their annual Hunt Helping Hands initiative. This year we have once again organized a food drive in support of our military families and food insecurity. Data we have received indicates many military families face this challenge and could use additional support. Details

about your communities food drive will be emailed, posted on social media, and cards left at each door. We are partnering with various groups on base who may have resources for distribution and we are also working with a local food bank closest to your community. Our goal is to make sure our families are taken care of and those in need receive the resources they need. Additionally, Hunt Military Communities is excited to collaborate with Hire Heroes USA to assist military service members and their spouses and meaningful careers upon completion of their military service. Our donation will fund career transition services for veterans, military spouses, and transitioning service members. We will also collaborate with them to source more military veteran and spouse talent for our teams. More to come on this fantastic opportunity to assist those needing career advisement and services. Thank you for allowing us to serve you.

Brian Stann

IMPORTANT REMINDER TEST YOUR OVEN!

Turkey Time is fast approaching. Please take a moment to test your oven this week. We don't want anyone's Thanks-giving dinner to be delayed due to long que of emergency calls for ovens.

NFH Heater Check Reminder

A friendly reminder to test your heater during a weekday in case any issues, maintenance can respond asap. We want to ensure you have heat as needed.

It's just dust that has accumulated on the heating element over the summer months if it smells like something is burning the first time you turn your heater on this season, don't be alarmed. The odor should dissipate after the heater has been on for a while; there is no need to call maintenance. If, however, the odor does not go away, or your unit is not emitting heat, please don't hesitate to give us a call and we'll send someone out to investigate the problem. Thanks ... and stay warm!
